If you are using another text editor (WordPerfect for example), use the « save as » option to save your file in MS-Word format.

## Graphics

All graphics must be inserted in the MS Word document. Available file format are: WMF, EPS, TIFF, PICT, BMP, JPG and GIF. Graphics, pictures and other non-text elements could increase unnecessarily the file size. The use of JPEG format is the best solution to decrease the total file size of your document.
