

CALL FOR PAPERS

THE 38th IEEE POWER ELECTRONICS SPECIALIST CONFERENCE

SPONSORED BY IEEE POWER ELECTRONICS SOCIETY

JUNE 17-21, 2007

HILTON IN THE WALT DISNEY WORLD® RESORT, ORLANDO, FL

www.pesc07.org

The IEEE Power Electronics Specialists Conference (PESC) is an annual international conference that provides a forum for research results that advance fundamentals and principles of power electronics technologies. PESC includes technical sessions, tutorials, informal discussion sessions, and an exhibition. PESC07 will be held at Hilton in the WALT DISNEY WORLD® Resort, Orlando, Florida, USA. Orlando is the world's premiere family vacation destination offering a great climate, close to 100 theme parks, and beautiful beaches just less than an hour away. The PESC07 conference hotel is located on Disney property, adjacent to the Downtown Disney area and with easy access and transportation to Walt Disney World theme parks as well as other nearby attractions, such as Universal Studios Orlando, Universal Islands of Adventure, Sea World, Cypress Gardens and Kennedy Space Center.

Topics of Interests

Design, control, analysis, modeling, and simulation of power electronic systems, converters, motor drives and components, semiconductor devices and technologies, magnetic devices and materials, capacitors and other energy storage elements, emerging power electronics technologies, and all other aspects of the field.

Paper Submission/Tutorial offering/Corporate Sponsorship

Detailed instructions are available on the PESC07 web site: www.pesc07.org. Please note, PESC policy specifies that each paper must have at least one author registered in full.

Important Dates

- Submission of Abstracts and Digests – November 10, 2006
- Author's Notification – February 16, 2007
- Submission of Final Manuscripts – April 20, 2007
