

CALL FOR PAPERS

39th Power Electronics Specialists Conference
15-19, June 2008 - Island of Rhodes, Greece
<http://www.pesc08.org>

The IEEE Power Electronics Specialists Conference (PESC) is an annual international conference forum for research results, which advance fundamentals and principles of power electronics technology. The conference includes: technical sessions, tutorials, and informal discussion sessions. PESC08 will be held at the Sofitel Chapsis hotel and convention center in the island of Rhodes, Greece. The island of Rhodes is considered one of the most popular summer resorts of Europe and can be reached by airplane from all over the world. Rhodes is situated at the cross roads of two major sea routes of the Mediterranean between the coast of the Middle East. The Sofitel Chapsis hotel and convention center is a 5-star hotel located 10 km from the city of Rhodes and 15 minutes from Rhodes International Airport.

Topics of Interests

Design, control, analysis, modelling, of power electronics systems, power converters (DC-DC, AC-DC, AC), motor drives and components, semiconductor devices and technologies, magnetic devices, energy storage elements, power quality and utility interface issues, aerospace power applications, systems, integration and packaging, distributed generation and renewable energy systems, electronics technologies, and all other aspects of the field.

Paper Submission/Tutorial offering/corporate Sponsorship

Instructions will be available on the PESC08 web site: www.pesc08.org

Please note, PESC policy specifies that each paper must have at least one author registered in full.

Important Dates

- Submission of abstracts and Digests: November 10th, 2007
- Author's notification: February 15th, 2008
- Submission of Final Manuscript: April 18th, 2008

For further information, please contact

Dr Stefanos Manias, General Chair, National Technical University of Athens, Greece manias@cer

Dr Vassilios Agelidis, Technical Chair, University of Sydney, Australia, v.agelidis@ee.usyd.edu.au
